PROFESSIONAL SUMMARY

Senior Full-Stack and Mobile Application Developer with **13+ years of software engineering experience**, specializing in AI-Powered Applications, React Native, React.js, TypeScript, JavaScript, Node.js, and cross-platform mobile development.

Experienced in leading mobile development teams, designing scalable application architectures, delivering consumer-facing and enterprise applications, and managing the complete software development lifecycle.

Strong background in iOS and Android development, REST API integrations, Firebase, authentication, real-time features, payment integrations, CI/CD automation, performance optimization, and production deployments.

Proven ability to collaborate with international clients, translate business requirements into technical solutions, mentor developers, conduct code reviews, and deliver reliable applications.

CORE TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Swift, Objective-C, Java, Kotlin

Frontend & Mobile: React Native, Expo, React.js, Next.js, Flutter, Ionic, Redux

Backend & Databases: Node.js, REST APIs, Firebase, Supabase, PostgreSQL, SQL

Mobile Integrations: Push Notifications, Authentication, Deep Linking, Payment Gateways, In-App Purchases, Location Services, Maps, Native Modules

DevOps & CI/CD: GitHub Actions, Fastlane, Jenkins, Bitrise, AppCenter, Expo EAS, Docker

Tools: Xcode, Android Studio, VS Code, Git, GitHub, Postman

Leadership: Technical Architecture, Team Leadership, Code Reviews, Mentoring, Client Communication, Agile Development, Release Management

---

PROFESSIONAL EXPERIENCE

Mobile Team Lead / Senior React Native Developer

Natty Hatty | November 2021 – October 2026

Technologies: React Native, React.js, JavaScript, TypeScript, Redux, Node.js, REST APIs, iOS, Android, Firebase, Git

- Led the mobile application development team, overseeing technical planning, architecture, feature implementation, and delivery.
- Took ownership of mobile application development, from requirement analysis and technical design through testing, deployment, and maintenance.
- Designed and developed scalable, high-performance mobile applications using React Native and TypeScript.
- Collaborated with product managers, designers, backend developers, and QA engineers to deliver high-quality features.
- Conducted code reviews, mentored developers, assigned technical responsibilities, and maintained coding standards.
- Integrated REST APIs, authentication, push notifications, and third-party services.
- Identified and resolved complex technical issues, improved application performance, and maintained code quality.
- Managed iOS and Android build configurations, release processes, and production deployments.
- Participated in technical discussions, project estimations, sprint planning, and delivery coordination.
- Ensured application stability, scalability, and maintainability through continuous improvements and best practices.
- Led the mobile development team across React Native and native iOS/Android integrations, ensuring scalable architecture and maintainable code.
- Provided technical guidance on mobile application architecture, including MVC, MVP, MVVM,

and component-based design patterns.
- Reviewed native Android (Java/Kotlin) and iOS (Swift/Objective-C) implementations, ensuring code quality and performance.
- Identified performance bottlenecks, resolved platform-specific issues, and improved application stability.

Technical Architect

Systango Technology Pvt. Ltd. | Indore, India
May 2016 – September 2021

- Led cross-platform mobile application development using React Native, Flutter, and Ionic.
- Designed application architecture and provided technical direction across multiple projects.
- Managed development teams, delegated responsibilities, reviewed code, and mentored junior engineers.
- Participated in international client interviews, technical discussions, requirement analysis, and project estimations.
- Collaborated with product managers, designers, QA engineers, and backend teams.
- Integrated REST APIs, third-party SDKs, authentication, and business-critical application workflows.
- Improved mobile application performance, reliability, and maintainability.
- Implemented CI/CD pipelines using Jenkins, Bitrise, and AppCenter.
- Contributed to production deployment and long-term maintenance of mobile applications.

Software Engineer – iOS

Codiant Pvt. Ltd. | Indore, India
April 2015 – April 2016

- Developed native iOS applications using Swift and Objective-C.
- Implemented application features using MVC architecture.
- Collaborated with senior developers on architecture and feature implementation.
- Used Git and GitHub for version control and team collaboration.
- Contributed to technical documentation, code quality, and user experience improvements.
- Worked with Fastlane for automated iOS deployment workflows.

Junior Software Engineer

Ypsilon IT Solution Pvt. Ltd. | Indore, India
January 2013 – March 2015

- Developed and maintained native iOS and Android application features.
- Assisted in application testing, debugging, and performance improvements.
- Collaborated with senior developers to implement mobile application modules.
- Participated in code reviews and followed established development practices.
- Built foundational expertise in mobile application architecture and development.

SELECTED PROJECTS

1. Natty Hatty – Consumer Mobile Application

Role: Mobile Team Lead

iOS: https://apps.apple.com/us/app/natty-hatty/id1671750048
Android: https://play.google.com/store/apps/details?id=com.nhcustomermobileapp&hl=en_IN

- Led the mobile development team, coordinating feature development and technical delivery.
- Provided technical direction and supported architecture decisions.
- Conducted code reviews and guided developers in implementing maintainable solutions.
- Collaborated with project stakeholders to align development with business requirements.
- Oversaw mobile development quality, debugging, and release readiness.

2. Amori – AI-Powered Dating Coach

Role: React Native Developer

iOS: https://apps.apple.com/us/app/amori-personal-dating-coach/id1552334356
Website: https://amori.app/

- Developed features for an AI-powered dating and relationship coaching application.
- Integrated backend APIs and AI-powered functionality.
- Worked on mobile user experiences, application performance, and production delivery.

3. Arzooo – B2B E-commerce Marketplace

Role: React Native Developer

Website: https://arzooo.com/
Android: https://play.google.com/store/apps/details?id=com.arzooonative
iOS: https://apps.apple.com/in/app/arzooo-b2b-for-retail-stores/id1497133088

- Contributed to a large-scale B2B marketplace for electronics retailers.

- Developed mobile features involving product listings, business workflows, and backend API integrations.
- Worked on application performance, reliability, and production maintenance.

4. OpenPath AI – AI-Powered Sales Enablement Platform

Role: React.js Frontend Developer

Website: https://openpath.ai/

- Developed React-based frontend functionality for an AI-powered sales enablement platform.
- Implemented complex dashboards and API-driven user interfaces.
- Worked on AI-assisted workflows and dynamic content rendering.
- Improved component architecture and frontend performance.

5. SwiftSku – Retail Management Application

Role: Mobile Application Developer

iOS: https://apps.apple.com/us/app/swiftsku/id1515815242
Android: https://play.google.com/store/apps/details?id=com.swiftsku

- Worked on a production mobile application supporting retail business operations.
- Contributed to mobile functionality and backend integrations.
- Supported application development, performance, and maintenance.

EDUCATION

Bachelor of Engineering – Information Technology
Indira Gandhi Government Engineering College, Sagar, Madhya Pradesh
Graduated: May 2012
Percentage: 74.4%

ACHIEVEMENTS

Shining Star of the Year – 2019
Systango Technology Pvt. Ltd.

Recognized for professional contributions and performance.

CERTIFICATION & TRAINING

J2EE Training
Vedisoft Software Consultancy, Bhopal
July – August 2011

Training in enterprise Java application development and J2EE technologies.
